Care Chemicals

General:

The information in this document is provided for “Vegan” suitability assessment. Compliance with a particular “Vegan” label is unintended and responsibility of the cosmetic product manufacturer.

Status information:

1. For the purposes of manufacture the definition “animal” applied is all vertebrates and multicellular invertebrates.
2. Manufacture does not involve, or have involved, the use of any animal product, by-product or ingredient.
3. Cross-contamination from animal substances is excluded/minimized as far as reasonably possible.
4. When applicable the use of genetically modified organisms (GMO) have not involved animal genes or animal-derived substances.
5. In contrast to EU Food regulation, it is a mandatory obligation that cosmetic ingredient suppliers generate toxicological data in order to be legally compliant.
6. For the purposes of chemical and cosmetic regulation the definition “animal” is according to the EU directive 2010/63 of the European Parliament and the council on the protection of animals used for scientific purposes.
7. No animal testing has been carried out by or on behalf of BASF on the ingredients of the product after 11th March 2009 and/or after the extended deadline 11th March 2013 for the purposes of the Cosmetic Regulation (EU) 1223/2009.
8. On request, animal testing information in the scope of the BASF cruelty free international (CFI) statement can be provided.
9. Only applicable for EcoBalanced products: 100 % of the fossil-based raw materials required for the manufacturing of this product were replaced by sustainably certified biomass in a mass balanced approach. The acceptance of this biomass balance approach depends on the individual vegan association.
