Care Chemicals

"Conflict Minerals" as defined under the U.S. Conflict Minerals Trade Act are

- columbite-tantalite (Coltan and Tantalum), cassiterite (Tin), gold, wolframite (Tungsten), or their derivatives; or
- any other mineral or its derivatives determined by the U.S. Secretary of State to be financing conflict in the Democratic Republic of the Congo or an adjoining country (Angola, Congo, Central African Republic, Sudan, Uganda, Rwanda, Burundi, Tanzania, and Zambia).

Based on our actual knowledge, no Conflict Minerals are used in the manufacture of the product named above. BASF does not purchase raw materials from suppliers in the Democratic Republic of the Congo (tier 1 suppliers) nor does BASF knowingly procure Conflict Minerals through suppliers located outside of these countries (tier 2 suppliers).
