Care Chemicals

BASF Beauty Care Solutions France SAS monitors raw vegetable oils, raw material derivatives and end products on a regular basis for the presence of pesticide residues.

The results of random testing on the products itself or representative material confirms compliance for pesticide residues with the substance limits as found in table 2.8.13.-1. of the current version of the European Pharmacopoeia: section 2.8.13. Pesticide residues.

In the table below is summarized, for batch 0024834701, the detailed levels corresponding to the Eur. Ph. limits for each pesticide tested.
