We create chemistry

Safety data sheet

BASF Safety data sheet
Date / Revised: 29.05.2025 Version: 5.0
Product: **C00087 HYALURONIC FS**

(30314333/SDS_COS_AU/EN)
Date of print: 31.12.2025

1. Substance/preparation and manufacturer/supplier identification

Product name:
C00087 HYALURONIC FS

Use: cosmetic ingredient

Recommended use: cosmetic ingredient

Manufacturer/supplier:
BASF Australia Limited (ABN 62 008 437 867)
Level 23, 40 City Road, Southbank
Victoria 3006, AUSTRALIA
Telephone: +61 3 8855-6600

Emergency information:
BASF Emergency Advice Number: 1800 803 440 (24h) [within Australia]
BASF Emergency Advice Number: + 61 3 8855 6666 [outside Australia]

2. Hazard identification

Classification of the substance and mixture:
No need for classification according to GHS criteria for this product.

Label elements and precautionary statement:

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification:
No specific dangers known, if the regulations/notes for storage and handling are considered.

The following percentage of the mixture consists of components(s) with unknown hazards regarding the acute toxicity: 4 %, dermal

The following percentage of the mixture consists of components(s) with unknown hazards regarding the acute toxicity: 1 %, oral

3. Composition/information on ingredients

Chemical nature

Substance nature: mixture

Preparation based on:
Complex extract of natural origin

Hazardous ingredients

(2-hydroxy-ethyl)-phenyl-ether

Content (W/W): >= 0.3 % - < 1 %	Acute Tox.: Cat. 4 (oral)
CAS Number: 122-99-6	Eye Dam./Irrit.: Cat. 1
	STOT SE: Cat. 3 (irr. to respiratory syst.)

2-methylpentane-2,4-diol

Content (W/W): >= 0.1 % - < 0.2 %	Flam. Liq.: Cat. 4
CAS Number: 107-41-5	Acute Tox.: Cat. 5 (oral)
	Skin Irrit.: Cat. 2
	Eye Irrit.: Cat. 2A
	Repr.: Cat. 2 (unborn child)

4. First-Aid Measures

General advice:
Remove contaminated clothing. If adverse health effects develop seek medical attention.

If inhaled:
Keep patient calm, remove to fresh air.

On skin contact:
Wash thoroughly with soap and water

On contact with eyes:
Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:
Rinse mouth and then drink 200-300 ml of water.

Note to physician:
Symptoms: Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11., (Further) symptoms and / or effects are not known so far
Hazards: No hazard is expected under intended use and appropriate handling.
Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-Fighting Measures

Suitable extinguishing media:
water spray, foam, carbon dioxide

Specific hazards:
Product is not combustible or explosive.

Special protective equipment:
Wear self-contained breathing apparatus and chemical-protective clothing.

Further information:
Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

Personal precautions:
Information regarding personal protective measures, see section 8.

Environmental precautions:
Do not discharge into drains/surface waters/groundwater.Discharge into the environment must be avoided.

Methods for cleaning up or taking up:
For small amounts: Pick up with suitable absorbent material. Dispose of absorbed material in accordance with regulations.
For large amounts: Dike spillage. Pick up with suitable appliance and dispose of.

7. Handling and Storage

Handling

Handle in accordance with good industrial hygiene and safety practice.

Protection against fire and explosion:
No special precautions necessary.

Storage

Suitable materials for containers: High density polyethylene (HDPE), glass
Further information on storage conditions: Keep container tightly closed and dry; store in a cool place. To be mixed before using. Close containers after use. Protect from the effects of light.

Storage stability:
Storage temperature: 10 - 30 °C
Avoid freezing.

8. Exposure controls and personal protection

Components with occupational exposure limits

No occupational exposure limits known.

Engineering Controls

Advice on system design:
See SDS section 8 - Exposure control and personal protection.

Personal protective equipment

Respiratory protection:
Respiratory protection not required.

Hand protection:
Suitable chemical resistant safety gloves (EN ISO 374-1) also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN ISO 374-1): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) etc.
Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing.

Eye protection:
Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:
Body protection must be chosen based on level of activity and exposure.

General safety and hygiene measures:
Handle in accordance with good industrial hygiene and safety practice. Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs.

9. Physical and Chemical Properties

Form:	viscous	
Colour:	white to off-white	
Odour:	product specific	
Odour threshold:	not applicable	
pH value:		(internal method)
	(20 °C)	
	not applicable	
melting range:		
	not determined	
Boiling range:	90 - 110 °C	
	(1,013 hPa)	

Flash point:	> 150 °C	
Evaporation rate:	Value can be approximated from Henry's Law Constant or vapor pressure.	
Flammability (solid/gas):	not flammable	
Lower explosion limit:	For liquids not relevant for classification and labelling.	
Upper explosion limit:	For liquids not relevant for classification and labelling.	
Ignition temperature:	not determined	
Thermal decomposition:	No decomposition if stored and handled as prescribed/indicated.	
Self ignition:	not self-igniting	
Explosion hazard:	not explosive	
Fire promoting properties:	not fire-propagating	
Vapour pressure:	not determined	
Density:	0.89 g/cm3 (20 °C)	(internal method)
Relative vapour density (air):	not applicable	
Solubility in water:	not dispersible (20 °C)	
Partitioning coefficient n-octanol/water (log Pow):	not determined	
Viscosity, dynamic:	100 - 5,000 cps	
Viscosity, kinematic:	not determined	

Other Information:
If necessary, information on other physical and chemical parameters is indicated in this section., No further information available.

10. Stability and Reactivity

Conditions to avoid:
No special precautions other than good housekeeping of chemicals.

Thermal decomposition:	No decomposition if stored and handled as prescribed/indicated.

Substances to avoid:
metal alloys

Hazardous reactions:
No hazardous reactions if stored and handled as prescribed/indicated.

Hazardous decomposition products:
No hazardous decomposition products if stored and handled as prescribed/indicated.

Chemical stability:
The product is chemically stable.

Reactivity:
No hazardous reactions if stored and handled as prescribed/indicated.

11. Toxicological Information

Routes of exposure

Acute oral toxicity

Experimental/calculated data:
LD50rat (oral): > 2,000 mg/kg (OECD Guideline 423)
Data of a comparable product.

Assessment of acute toxicity

Virtually nontoxic after a single ingestion. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Symptoms

Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11.
(Further) symptoms and / or effects are not known so far

The following percentage of the mixture consists of components(s) with unknown hazards regarding the acute toxicity: 4 %, dermal

The following percentage of the mixture consists of components(s) with unknown hazards regarding the acute toxicity: 1 %, oral

Irritation

Assessment of irritating effects:
Not irritating to eyes and skin. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Experimental/calculated data:
Skin corrosion/irritation rabbit: non-irritant (OECD Guideline 404)
Data of a comparable product.

Serious eye damage/irritation rabbit: non-irritant (OECD Guideline 405)
Data of a comparable product.

Respiratory/Skin sensitization

Assessment of sensitization:
Based on the ingredients, there is no suspicion of a skin-sensitizing potential.

Information on: 2-Ethylhexyl palmitate----------

Germ cell mutagenicity

Assessment of mutagenicity:
Mutagenicity tests revealed no genotoxic potential. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Experimental/calculated data:
Bacterial reverse mutation assay
Bacteria: negative (OECD Guideline 471)
Data of a comparable product.

Carcinogenicity

Assessment of carcinogenicity:
Based on the ingredients there is no suspicion of a carcinogenic effect in humans.

Reproductive toxicity

Assessment of reproduction toxicity:
Based on the ingredients, there is no suspicion of a toxic effect on reproduction.

Developmental toxicity

Assessment of teratogenicity:
Based on the ingredients, there is no suspicion of a teratogenic effect.

Information on: 2-methylpentane-2,4-diol
Assessment of teratogenicity:
Indications of possible developmental toxicity/teratogenicity were seen in animal studies.

Specific target organ toxicity (single exposure)

Based on available data, the classification criteria are not met.

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:
Based on available data, the classification criteria are not met.

Aspiration hazard

No aspiration hazard expected.

Other relevant toxicity information

No data available.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:
At the present state of knowledge, no negative ecological effects are expected. The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: 2-Ethylhexyl palmitate
Toxicity to fish:
LC50 (96 h) > 10,000 mg/l, Brachydanio rerio (DIN EN ISO 7346-1, semistatic)
No mortality was observed. No effects at the highest test concentration. The details of the toxic effect relate to the nominal concentration.
Analogous: Assessment derived from products with similar chemical character.

Information on: 2-Ethylhexyl palmitate
Aquatic invertebrates:
EC50 (48 h) > 3,000 mg/l, Daphnia magna (Directive 92/69/EEC, C.2, static)
The product has low solubility in the test medium. A saturated solution has been tested. No effects at the highest test concentration. The details of the toxic effect relate to the nominal concentration.
Analogous: Assessment derived from products with similar chemical character.

Information on: 2-Ethylhexyl palmitate
Aquatic plants:
EC50 (72 h) > 0.05 mg/l (growth rate), Scenedesmus subspicatus (Guideline 92/69/EEC, C.3, static)
The statement of the toxic effect relates to the analytically determined concentration. The product has low solubility in the test medium. A saturated solution has been tested. Limit concentration test only (LIMIT test). No toxic effects occur within the range of solubility.
Analogous: Assessment derived from products with similar chemical character.

Mobility

Assessment transport between environmental compartments:
Study not necessary due to exposure considerations.

Persistence and degradability

Assessment biodegradation and elimination (H2O):
Readily biodegradable (according to OECD criteria).

Information on: 2-Ethylhexyl palmitate
Elimination information:
80.8 % CO2 formation relative to the theoretical value (28 d) (OECD Guideline 310) (aerobic, municipal sewage treatment plant effluent) Readily biodegradable (according to OECD criteria).

Bioaccumulation potential

Assessment bioaccumulation potential:
Study not necessary due to exposure considerations.

Additional information

Other ecotoxicological advice:
The product has not been tested.

13. Disposal Considerations

Must be disposed of or incinerated in accordance with local regulations.

Contaminated packaging:
Uncontaminated packaging can be re-used.
Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. Transport Information

Domestic transport:

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

Sea transport
IMDG

	Not classified as a dangerous good under transport regulations
UN number or ID number:	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable Marine pollutant: no
Special precautions for user	None known

Air transport
IATA/ICAO

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
Proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

Maritime transport in bulk according to IMO instruments

Maritime transport in bulk is not intended.

15. Regulatory Information

Other regulations

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP): Not Scheduled

Registration status:

AICIS, AU

Listed in AIIC.

16. Other Information

Information on intended use:This product is of industrial quality and unless otherwise specified or agreed intended exclusively for industrial use.This includes the mentioned and recommended usage.Any other intended applications should be discussed with the manufacturer.In particular this concerns the application for products that are the object of special standards and regulations.

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
